The next two days were spent with workshops to discuss burning topics like the revolution in the Ukraine, brainstorm about new projects within the Forum Alpbach Network and share experiences of their main focus: providing scholarships for the European Forum Alpbach. Some clubs presented their way of fundraising, advertising the scholarship programs and diversity within their scholarship holders, but also diversity for the panelists at the

Cultural Lower Austria - Wachau river cruise and wine tasting at Sandgrube 13

Besides the lively discussions and the rich knowledge exchange, the young europeans enjoyed a lunch during a river cruise on the danube and learned about the wine harvest. Fortunately, they also had the possibility to taste some of the wines of Winzer Krems. Their stay at the beautiful abbey Melk was concluded with a guided tour through the museum, library and church of the abbey.
